Assumptions/Notes:

- For SF ELFA Income Eligibility Section, combined the 1-person and 2-person family figures into one row using the 2-person figures. This mirrors last year's table, is more generous, and is more in line with the state. Also, if you have children a 1-person household may not be possible.
- For the SF ELFA section, our source data stopped at 11-person families, to estimate a 12-person family's figures, we mirrored the prior year's methodology of just applying the same figures from an 11-person family.
